WASHINGTON, Jan. 3.—(By the Associated Press.) The executive session of the Senate was held for the purpose of taking up nominations which had been reported from committees and to which no objection had been made in the Senate. As there was no quorum present a single motion was sufficient to send a nomination over and several went over under the operation of this rule.

The nomination of R. E. Preston, director of the mint, was among those called up and disposed of for a time in this way. It has become evident that he cannot be confirmed in the absence of a quorum but his friends do not anticipate any trouble when the real test shall come.

NEW YORK, Jan. 3.—(By the Associated Press.) The Herald's Montevideo special says that Peixotto is believed to be arranging to get all his ships together before attacking Melo's navy. He has sent a dispatch to Touzon ordering the Iauchala and Benjamin Constant, which are building there, to proceed to Pernambuco with all speed. It is understood these two ships are far from ready for effective service.

The flames also swept westward across Water street to the rear of a large five-story business block known as the Chamber of Commerce building, which is owned by T. P. Brown, and occupied by the Western Union Telegraph Company, the American District Company and a large number of offices, which was also destroyed.

From this the flames spread south to the next building, five stories high, occupied as a museum and theater. This was gutted within a few minutes. The next building southward was the wholesale drug house of West & Trix, which was also a total loss. To the west the flames leaped across Summit street, the chief retail street of the city, injuring the Hartford Block; but the fire was here checked without great damage. In the rear of this building is the office of the Postal Telegraph Company, the manager of which removed all apparatus, thus cutting off all telegraphic communication for the time, as the Western Union office and instruments were destroyed. A two-story block on the northwest corner of Water and Madison streets, diagonally across from the Quale-elevator, was also destroyed.

Chris Evans Seen at Stoke's Valley—California Wool-growers Oppose the Will-some Bill—Death of Dwight Spencer of Napa.

By Telegraph to The Times.

SAN FRANCISCO, Jan. 3.—(By the Associated Press.) With the exception of two buildings all the exposition buildings are in readiness to receive exhibits as fast as they arrive on the ground. The Monterey building is finished and the Santa Clara and San Joaquin buildings are receiving the finishing touches. Both the northern and central and the southern counties' buildings are rapidly nearing completion. All the concessionaires except the Vienna Prater and the '49 mining camp are ready to receive visitors.

Visitors to the grounds thus far have found it difficult to get about, as the roads are in bad condition on account of recent rains and heavy teaming.

There remains but three days in which local artists may submit their work. After January 6 no exhibits for the art building will be received.

Wells, Fargo & Co. have secured 720 square feet in the Mechanics Arts building. The exhibit will consist of the relics of the early day carrying business on the Pacific Coast which appeared at the Columbian Exposition.

CHRIS EVANS SEEN.

He Was at Stoke's Valley on Sunday—A Pass Robles Rumor.

VITALIA, Jan. 3.—(By the Associated Press.) The report was confirmed today that Chris Evans was at Stoke's Valley, twenty miles northeast of this city on Sunday, where he took dinner. He was well-armed, and carried a heavy valise which he said had valuable contents. It is not stated what direction he took. It is believed that he was prepared to leave the country and was on the way out.

PASO ROBLES, Jan. 3.—It is rumored here that Chris Evans is making for this section. At one time Evans lived at Adelaide, fifteen miles from here, where he now has friends. Sunflower Valley near here is also a point that he will no doubt visit if coming this way, for he has friends and relatives there. Adelaide is mountainous, and Evans knows every foot of it.

THE BAKERSFIELD RUMOR.

FRESNO, Jan. 3.—The report which comes from Bakersfield to the effect that Evans and Morell were seen near there yesterday evening, finds little favor with the citizens here, who are well-informed as to Evans's character. Few think him silly enough to travel in that open country in broad daylight, as he would be summoned up in a few words, no one except Evans's closest friends know anything about where he is. However, there seems to be good grounds for assuming that Evans and Morell are not alone, but have a third companion, Fredericks, who is supposed to have smuggled arms into Folsom Prison, and attempted to liberate George Sontag. Fredericks is known to have been in the country some time, and, as the friend of Evans, probably figured in the escape.

Mark Walker, Assistant District Attorney, who has been with the posse, returned this evening at 7 o'clock.

THE INCOMES.

Chairman McMillin Outlines the Features of the New Tax.

WASHINGTON, Jan. 3.—(By the Associated Press.) Mr. McMillin, chairman of the sub-committee in charge of the internal revenue feature of the tariff bill, outlined, today, the salient feature of the income-tax measure which he expects to complete in a day or two. He said:

"The corporation part of the measure will not require an inquiry of every individual to determine whether a corporation stock he holds, but the assessment will be made against and paid by the corporations in the first instance and hence the man owning corporate stock will not be worried by the assessors unless he is subject to an individual income tax. The corporation will pay the tax of each of its incorporators and will in turn charge it up against them, but to prevent taxing a man twice if the corporation pays for the incorporator on the dividends he would derive, he in turn is credited with the amount of his personal general income for taxation."

"As to foreigners and foreign associations holding interest-bearing securities in this country they will be assessed the same as our citizens. It will not be necessary for us to go abroad in order to ascertain these investments as an assessment against a corporation will cover all its stockholders, foreign as well as domestic. The collection of the tax will be in the hands of the internal revenue bureau, and the new tax collector's buildings are rapidly nearing completion. All the concessionaires except the Vienna Prater and the '49 mining camp are ready to receive visitors."

Mitchell Agrees to the Club's Plans.

He Says He Is a Little Sore From Work

But Is Ready to Fight in a Week if Necessary.

The Sports Think They Have Circumvented the Governor—The San Francisco Races—Pitcher Galvin Arrested for Larceny.

By Telegraph to The Times.

JACKSONVILLE, Jan. 3.—(By the Associated Press.) Unless something of an unexpected nature turns up, the Corbett-Mitchell battle will surely take place. It is probable that the original plan will be fully carried out, but if found impossible to bring the fight off in this city a secret battle-ground will be selected somewhere within the limits of Duval or St. Johns counties and the contest will go on as if nothing had happened. This is the list of arrangements which have been made within the last few days.

Corbett yesterday signed new articles agreeing to fight at any place in Florida named by the club people, but as it is a notorious fact that no jury can be found in Duval county to decide against the truth, it is pretty certain the outcome will be favorable to the club.

If Gov. Mitchell sees fit to step in later, all plans for a fight in Jacksonville will be dropped, and a new battle-ground will be selected. The location of course will depend on the month of January. In December 22 will be the first all-class fight in the city. In January 23 will be the all-class amateur fight.

Representative Tarney, one of the members of the Ways and Means Committee who voted for the income tax today, met the objection that tremendous opposition would come from the class receiving incomes with as many men as were taxed.

Representative Tarney, one of the members of the Ways and Means Committee who voted for the income tax today, met the objection that tremendous opposition would come from the class receiving incomes with as many men as were taxed.

Corbett, yesterday signed new articles agreeing to fight at any place in Florida named by the club people, but as it is a notorious fact that no jury can be found in Duval county to decide against the truth, it is pretty certain the outcome will be favorable to the club.

If Gov. Mitchell sees fit to step in later, all plans for a fight in Jacksonville will be dropped, and a new battle-ground will be selected. The location of course will depend on the month of January. In December 22 will be the first all-class fight in the city. In January 23 will be the all-class amateur fight.

[SOCIAL RECORD.]
IN SOCIAL SPHERES.

Tuesday evening the guests of the runswick, numbering seventy or more, formed a novel procession in the parlors and halls of the hotel. They were headed by Mrs. Dr. W. R. Lewis of Chicago, with a banjo playing. "Take back the heart that thou gavest." She was followed by Mr. M. C. McLean of Philadelphia, bearing an unusually generous-sized birthday cake, containing twenty-one lighted wax tapers; and attended by Messrs. McLean, Robinson, Russell, Reilly, Robbins, Fellows, Jordan, Niblock and Hoyt, and by J. M. Wollrecht of New York, who bore a bouquet of paperless geraniums, decked with floral and other trimmings, surmounted by a large red heart, with the stem encased in silver, constituting an unique bouquet. He was attended by Mrs. Wollrecht, the Misses Reilly and others, followed by Rev. Dr. C. C. McLean and A. F. Robbins, proprietor of the runswick, with the remainder of the guests.

The procession proceeded to the rooms of Mr. and Mrs. Henry M. Hart of St. Paul, Minn., it having been by chance made known that morning that January 2 was the anniversary of Mr. Hart's birthday. Several bright that gentle- man to the door, where he was completedly surprised. The doors being opened wide the guests filed in, when Mr. Wollrecht, stationing himself in the bay-window alcove, in happy spirits presented the huge bouquet. Mr. Hart responded in a fitting manner concluding by saying that he was glad he lived, which was responded to with cheers.

Rev. Dr. McLean then in a felicitous manner congratulated Mr. Hart on his appearing to have attained twenty-one years of age, and read the following poem, hastily composed for the occasion, by Mrs. Mary Russell of Chicago, sister of the late Hon. Alexander W. Randall, ex-Governor of Wisconsin, known as "The War Governor," and who was subsequently United States Minister to Rome:

"How well 'tis to spend these landmarks of time
In this land of fair flowers, the orange vales.
Where hoary old mountains and beautiful vales,
Are mighty in legend and gay fairy tales.
When the sun in its rounds sinks deep
In the waves,
Beyond the green shore that the great ocean leaves.

This birthday we meet, and each bear a part
In kindlest wishes from the depth of the prime
With the hope that in age, as now in his prime
Friend still may cheat, old, old Fa-
ther Time."

A COINCIDENCE.

Another Theory Regarding the Train Robbery Exploded.

A Remarkable Story Told by a Former inmate of the County Jail—A Youthful Highwayman's Plan to "Hold Up" the Train.

The Roscoe train-robbers have not yet been found, although several detectives have been industriously working up clues with no end during the past few days.

The last "pointer" followed hinged upon a story which furnished a singular coincidence, but, upon being traced out, proved to be baseless as all of the other scents taken up by the sagacious sleuths.

Some time before the robbery occurred, three boys were confined in the County Jail, awaiting examination for having "held up" a Chinaman in the western part of the city. While so confined, one of the youths proposed to a fellow-prisoner that when they got out they should rob a train.

Part of the story was that the young highwayman suggested the locality of Roscoe as a particularly favorable place for the commission of the act.

After the robbery occurred, the second prisoner told the story to the officers, and they at once sent out to hunt up the operator in the scheme who went out on bail at the time. The young man was found up in Ventura county, and admitted that he had proposed the train-robbery, but insisted that he was simply joking when he did so. The detectives were not satisfied with this at first, but the boy proved conclusively that he was not in the vicinity of Roscoe when the robbery occurred, and so this "clue" had to be abandoned, along with the rest, remarkably pointed though it seemed.

Meanwhile, new theories as to who did the "holding up" are still in order.

FIRST STREET.

Opposition Among Property-owners to the Widening.

On the part of some of the property-owners within the assessment district there seems to be a good deal of opposition to the widening of First street between Main and Los Angeles streets, as proposed in the ordinances of intention to do that work passed by the City Council at Tuesday's meeting.

It is claimed by them, or some of them, that the eight feet of property to be taken will be adjudged to be worth so high a price that the assessment on the property in the district will be excessively heavy. It is also stated that the improvement will be opposed, even to the extent of fighting it in the courts.

Now that the ordinance of intention has been passed by the Council, the next step will be to have the ordinance published. The Street Superintendent will then proceed to have maps printed and even them posted along the street as required by law.

From the date of posting notices the protestants will have ten days in which to sign and present to the Council a protest against the widening. After the expiration of that ten days, at the discretion of the Council, the protest will be naturally referred to the City Engineer to ascertain the frontage represented and report on the same, which he will probably do at the next meeting of the Council. If the protest be insufficient, then the Council may issue an ordinance ordering the widening and appointing commissioners for the same.

It will probably be after that time, if at all, that the matter will be brought into the courts.
